Building your frog

You should have 2 pink inner mouth pieces, a green outer mouth piece and a white under mouth piece and some legs!

Top of head:

Step 1: Stuff the green head piece with a little stuffing and add an optional magnet if you want it to be able to quickly collect pins.

Step 2: Sew on the pink inner mouth piece

Bottom of head:

Step 1: Place the pink inner mouth piece inside the white bottom mouth piece and sew together. (don't use stuffing)

Completing the frog:

Step 1: Sew the two pieces of the head together

Step 2: Sew the frogs legs to the back of the head and secure them at the side of the head.

Lily pad

Step 1: Cut two lily pad shapes out of green felt, as well as a small rectangle that will be used to hold some elastic in place.

Step 2: Cut enough elastic to comfortably and securely fit your wrist, tie a knot and pin onto one side of the lily pad. Stitch the rectangle over this on two sides, so that you can freely rotate the elastic and remove the pin.

Step 3: Sew and stuff the lily pad, you can also add some decorative stitches to add interest to the top of the lily pad, like I do.

Step 4: Stitch the froggy onto his lily pad and get crafting!
